

## Captain's FORE!-word

Kitchener looked you in the eye and you responded. We now need you to respond and join in with the Seniors. Already one club has pulled out of fixtures with us because we can't guarantee a full team to play against them! B\*\*\*\*r!

Join us on Mondays, our formal competition day, with individual and team games and varied formats - yellow ball, waltzes, even in reverse and 2 from 3s feature - join in and find out how these

work and how much fun knocking a little white ball around can be!

Wednesdays and Fridays are informal roll-ups. If you see the names Hillaby, Walker, Mawer, or Walters (the regulars) just join a group. You'll be very welcome and small team games with plenty of banter are the key features.

Also, 'Friendly' fixtures in Durham, Yorkshire and Cumbria are the highlights of the Seniors' season. If it's a while since you played

Bedale, Richmond, Brancepeth, Catterick, Penrith, or Appleby, now's your chance to play them again and enjoy a meal with likeminded and friendly folk when you're finished.

These are great days especially if you win, it's matchplay

pairs! We have a great record of success over the last few seasons but teams of 16 are getting harder to find. You will make a difference!

Trips away are another thing to consider. We visit **Dunstanburgh** every year as a day trip but we'll do yearly double overnighters to, for example, the Yorkshire coast, Cumbria, and Scotland. Good golfing trips with lots of laughs and some great courses.

the time. Barnard Now's Castle Seniors NEED YOU! Ken

## **Robinson hat-trick**

**Denis Robinson** and his wife, **Marion**, completed a remarkable treble on the

day before their 46th weddina anniversary.

They earned 36 points to win the third round of the Hall Trophy, a mixed greensome competition, shortly after both

had won individual events.

Denis took the honours in the seniors' Past Captains' Plate while Marion won the ladies' equivalent.

### **Grumpy's Research Corner**

Lots of academic research shows significant benefits for you of playing regular golf and being a more active member of a senior section. Some benefits include:

Live longer — Better health — Lose weight

Stave off dementia — Enjoy life more

Improve sleep — *Make new friends* 

Subsidised events — Keep flexible

Mutual support — Varied competitions

Free golf at other clubs — and more!

## **Book now!**

## **Dirty Dozen's Dangerous Depletion**

By our intrepid reporter, Tim Wellock

THEY might have been the Dirty Dozen but the 12 who made the annual trip to the **Seascale Seniors Open** showed no sign of contamination.

There is always the fear of developing a green glow on the testing links bordering Sellafield, otherwise the course is a gem.

Our top pair were **Andy Simpson** and **Tony Mawer** (*pictured on the front page celebrating in the bar*), who thought they had 43 points but for reasons unknown were

marked down to 41 (Ed: it was radioactive decay).

It didn't cost them a prize as there was a big bunch in joint second on 44, six behind the bandits who won.

Our old friend **Mike Applegarth**, now based near Stranraer, made a guest appearance and seemed in good fet-

After a convivial night at the Pheasant Inn, Bassenthwaite, they tackled the **Cockermouth** course and decided it was more suited to mountain goats. (Ed: as the expression on Tony's face demonstrates!)

## **Caption competition**

Send your caption for the photo of **Sid** (below) to editor@teetalk.uk. The best entry as decided by our entirely biased panel of judges will win a bottle of wine!

# Ken's Kar Krash Kalamity

**Ken** is making a good recovery after his accident. He is almost fully mobile, but still has some pain in his ribs. This causes him problems when, for example, someone makes him laugh.

Ken has therefore requested that no-one tell him any jokes (apart from **Malcolm**, whose jokes are so bad they never make Ken laugh anyway!).

In the meantime, Ken is receiving moral support from some ducks camped outside his patio door.
